Capgemini Awarded 2009 SAP® Pinnacle Award

Global Partner Awards Recognize SAP Partners that Made Exemplary Contributions to SAP's Ecosystem

Paris — May 20, 2009 — Capgemini today announced that they have been awarded a 2009 SAP® Pinnacle Award in the category Top Company Contributor – BPX (Business Process Expert) Community. SAP Pinnacle Awards were granted to leading SAP partners that have excelled in enhancing the customer experience, addressing critical issues such as accelerating co-innovation and improving return on investment. Winners were selected based on over 300 nominations, twice the amount in 2008, received from partners and SAP employees. Capgemini received the award at a special awards ceremony held on the eve of SAPPHIRE® 2009, SAP's international customer conference held in Orlando, Fla. May 11 – 14.

“Capgemini is proud to be recognized among SAP's thriving partner ecosystem with this prestigious award. This marks the third time in the past four years we've been honored with an SAP Pinnacle Award,” said Renate Radon, vice president, Global Alliance Executive at Capgemini. “This award once again demonstrates that our clients can rely on our capabilities to implement new, innovative technologies and solutions for superior performance and first-mover advantage, thanks to our close partnership with SAP.”

Capgemini and SAP have worked together for more than 20 years. The relationship has created a wealth of experience particularly around new architectures and technologies, such as SAP Enterprise Architecture Framework methodology for service-oriented architecture (SOA), as well as new solutions with specific industry focuses. Capgemini's close collaboration with SAP in client engagement, as well as solution development, provides the team with deep insights into SAP's products and how they can be best leveraged to meet client demands.

This SAP Pinnacle Award recognizes Capgemini's contribution to the BPX community. BPX generates information and analysis regarding the tasks of a business process expert, such as modeling, process architecture and design, process-driven project management, BPM methodology, end-to-end process descriptions, and industry-specific process improvement scenarios.

“SAP is committed to fostering an ecosystem that is driven by co-innovation and which uniquely provides solutions and services that help customers meet their most pressing challenges,” said Zia Yusuf, executive vice president, Global Ecosystem and Partner Group, SAP. “SAP Pinnacle Awards recognize those partners that have consistently demonstrated excellence in delivering value-focused and cost-effective solutions and services which help customers address their industry and business process needs. We thank Capgemini for their dedication and passion to teaming with SAP to help extend the value of a customer-focused ecosystem.”

About Capgemini

Capgemini, one of the world's foremost providers of consulting, technology and outsourcing services, enables its clients to transform and perform through technologies. Capgemini provides its clients with insights and capabilities that boost their freedom to achieve superior results through a unique way of working, the Collaborative Business Experience™.
